**THE HON. SRI V. RAMAIAH :** Mr. Speaker Sri, Government have undertaken procurement of more than three lakhs tonnes of paddy from Thanjavur district. The finance needed for this operation is of the order of Rs. 20 crores. The total quantity has to be procured within a limited period from Thanjavur district. It has certainly created some bottlenecks like the capacity of the railway to provide adequate number of wagons for movement and adequate finance to cover the operations. With a view to meet the situation, Government have decided to purchase on State account and instructions have been issued to the Collector of Thanjavur to see that whatever paddy is offered is purchased at support price and stored by the Government. The movement from Thanjavur district was hampered in the month of February owing to the complete disruption of traffic caused by the recent disturbances in the State. A proper co-ordination has now been achieved with the Railways for the regular movement of paddy from Thanjavur district. Four godowns with a capacity of two lakhs tonnes have been constructed on an emergency basis which will be used for storing the paddy and rice procured in Thanjavur district. These measures are adequate in the opinion of the Government to meet the situation arising out of the procurement of surplus paddy available in Thanjavur district. The procurement of three lakhs tonnes of paddy is a huge undertaking, unprecedented in the history of the State. Such an operation has not been undertaken till now. It is necessary for the
